FULFILLING THE LEGACY: INTERNATIONAL JUSTICE 60 YEARS AFTER NUREMBERG

**February 17-18, 2006
at the University of Washington School of Law
William H. Gates Hall**

In 1945, the Nuremberg Tribunal was established to prosecute the leading military and political leaders of Nazi Germany. The Tribunal is a testament to the triumph of the rule of law in the struggle against tyranny and oppression. As noted by Justice Robert Jackson in his opening statement to the Tribunal, "[t]hat four great nations, flushed with victory and stung with injury stay the hand of vengeance and voluntarily submit their captive enemies to the judgment of the law is one of the most significant tributes that Power has ever paid to Reason."

Convened by the Legal Network of Amnesty International USA, this conference will examine the Nuremberg legacy as it relates to current efforts to promote accountability for human rights abuses. It will also consider how Nuremberg influences contemporary views on fair trial norms.

The conference will be held in conjunction with the Fitzpatrick Fund and Condon-Falknor Lecture at the University of Washington School of Law. The late Joan Fitzpatrick was a leader in the human rights movement and a firm believer in the power of the rule of law. The Fitzpatrick Fund was established in her honor at the University of Washington to provide grants for work in the field of human rights.

CLE credit will be available. All lawyers, law students, and all other human rights activists interested in international justice issues are invited to attend!
