

# Join the January 11 Day of Action Against Guantánamo!

We the people say NO to U.S. human rights violations in the name of unending “global war”

Join us on the 11th anniversary of Guantánamo prison to call on President Obama to keep his promise to shut it down, and for all branches of the U.S. government to uphold human rights.

- Close Guantánamo: all detained people must either be charged & fairly tried, or be released
- Resolve the cases of the publicly cleared detainees, including Shaker Aamer & Djamel Ameziane
- End indefinite detention & remove detention provisions in the National Defense Authorization Act
- End unlawful killings with drones and other weapons
- Ensure accountability for torture, unlawful killings & other abuses
