

CONGRESS: PASS THE PROTECTING HUMAN RIGHTS AND PUBLIC HEALTH IN FOREIGN ASSISTANCE ACT

In January 2026, the Trump administration dramatically expanded the Global Gag Rule (GGR), a policy that prevents organizations receiving US global health assistance from providing information, referrals or services for legal abortion or advocating for access to abortion services in their country. This policy now includes the prohibition of support for transgender people, and organizations that support diversity, equity, and inclusion (DEI).

This is yet another example of the Trump administration weaponizing foreign assistance to export its extreme rights agenda around the world. The expansion of the GGR is about controlling speech, restricting services, and exporting a narrow ideological agenda to the rest of the world.

The Protecting Human Rights and Public Health in Foreign Assistance Act (S.4436 / H.R.8582) would block the Trump administration expansion of the Global Gag Rule.

Urge your Senators and Representative and demand to pass the Protecting Human Rights and Public Health in Foreign Assistance Act (S.4436 / H.R.8582) to stop the Trump administration its egregious and cruel agenda: to restrict abortion access, undermine efforts to advance diversity, equity, inclusion, and gender equality, and to erase transgender, nonbinary, and intersex people from public life around the world.
